HORTON, INC. his/her successors and assigns, including but not limited to any homeowners association, commercial developer, holder of any portion of the below described property, and/or similar (hereinafter called the "Landowner"), and the Effingham County Board of Commissioners, hereinafter called the "County".

WITNESSETH, that WHEREAS, the Landowner is the owner of certain real property described as (*Effingham County Tax Map/Parcel Identification Number*) TM# 04190-00000-002-00 and recorded by deed in the land records of Effingham County, Georgia, Deed Book B Page 93B, hereinafter called the "Property".

WHEREAS, the Landowner is proceeding to build on and develop the property; and

WHEREAS, the Stormwater Management Plan and the Operations and Maintenance Plan (O&M) known as PARK WEST PHASE 5B, (insert name of development) hereinafter called "the Plan", which is expressly made a part hereof, as approved or to be approved by the County, provides for detention of stormwater within the confines of the property; and

WHEREAS, the County and the Landowner, its successors and assigns, agree that the health, safety, and welfare of the residents of Effingham County, Georgia, require that on-site stormwater management facilities be constructed and maintained on the Property and in accordance with the Plan; and

WHEREAS, the County requires that on-site stormwater management facilities as shown within the Plan be constructed and adequately maintained by the Landowner, its successors and assigns.

NOW, THEREFORE, in consideration of the foregoing premises, the mutual covenants contained herein, and the following terms and conditions, the parties hereto agree as follows:

1. The on-site stormwater management facilities shall be constructed by the Landowner, its successors and assigns, in accordance with the specifications identified in the Plan.
2. The Landowner, its successors and assigns, shall adequately maintain the stormwater management facilities and perform the work necessary to keep those facilities in good working order at all times, as described in the Plan. This includes all pipes, channels or other conveyances built to convey stormwater to the facility, as well as all structures, improvements, and vegetation provided to control the quantity and quality of the stormwater runoff. Adequate maintenance is herein defined as good working condition so that these facilities are performing their approved design functions.

The purpose of the inspection is to ensure safe and proper functioning of the stipulated facilities. The County shall provide the Landowner, its successors and assigns, copies of the inspection findings and a directive to commence with the repairs if necessary.

5. In the event the Landowner, its successors and assigns, fails to maintain the stormwater management facilities in good working condition acceptable to the County, the County may issue citations to the Landowner for resulting, continuing ordinance violations, on a daily basis, until such time as the issues are satisfactorily resolved. Additionally, the County may enter upon the Property and take whatever steps necessary to correct deficiencies identified in the inspection report and to recover the costs of such repairs from the Landowner, its successors and assigns through the appropriate means. This provision shall not be construed to allow the County to erect any structure of permanent nature on the land of the Landowner outside of the easement for the stormwater management facilities. 6. Landowner, its successors and assigns, will perform the work necessary to keep these facilities in good working order as appropriate. In the event a maintenance schedule for the stormwater management facilities (including sediment removal) is outlined on the approved plan, the schedule will be followed.
7. In the event the County, pursuant to this AGREEMENT, performs work of any nature, or expends any funds in performance of said work for labor, use of equipment, supplies, materials, and the like, the Landowner, its successors and assigns, shall reimburse the County upon demand, within thirty (30) days of receipt thereof for all actual costs incurred by the County hereunder.
8. This Agreement imposes no liability of any kind whatsoever on the County and the Landowner agrees to hold the County harmless from any liability in the event the stormwater management facilities fail to operate properly.

Staff Report

Subject: Amendment to Part II, Appendix C, Article III General Provisions, Section 3.3
Author: Teresa Concannon, AICP, Planning & Zoning Manager
Department: Development Services
Meeting Date: January 19, 2021
Item Description: Consideration to approve the **Second Reading** of amendments to Part II, Appendix C, Article III General Provisions, Section 3.3

Summary Recommendation: Staff has added accessory buildings in the front yard as an option for properties in the AR-1 and AR-2 zoning district, in *Section 3.3 Accessory Structures in Residential Districts*, and recommends approval of the revised ordinance language that will protect the integrity of adjacent properties and enhance land use opportunities for the community.

Executive Summary/Background:

- Part II, Appendix C, Article III General Provisions, Section 3.3, does not allow accessory buildings in any area other than the side or rear yard in any zoning district.
- Owners of property in the AR-1 and AR-2 zoning districts periodically request variances to allow accessory structures in the front yard, to accommodate their storage needs and in order to preserve trees and wetlands in the rear portions of their properties.
- The location of primary and accessory structures on properties of five or more acres can be accommodated without affecting the aesthetics of surrounding properties, if all buildings meet the front setback requirements for the zoning district.
- Allowing accessory structures in the front, side, and rear yards in the AR-1 and AR-2 zoning districts to accommodate the needs of property owners with five or more acres eliminates the need for variance requests.
- The County Attorney has reviewed and approved the ordinance as to form.

Executive Summary:

Each year the Board of Commissioners proposes a tentative budget. During the year, the Board receives requests from agencies and department heads to adjust the budget. Section (b)(1) notes that each unit of local government shall adopt and operate under an annual balanced budget for the general fund, each special revenue fund, and each debt service fund in use by the local government. The annual balanced budget shall be adopted by ordinance or resolution and administered in accordance with this article.

The budget amendment attached reflects the following changes:

1. Sheriff's Office
 - a. Funding of two Traffic Unit Deputies
 - b. Funding purchase and outfitting of two Dodge Durango SUVs
 - c. Funding provided from GF Fund Balance

Alternatives for Commission to Consider:

1. Approve the Resolution to amend the budget for 2020-2021.

Sheriff McDuffie,

Per your request, I was able to ascertain the following information from the different departments in response to salary, vehicle and equipment needed for those vehicles for two deputies. Below is a breakdown of that information.

Salary: \$18.26 per hour- this amount was obtained by taking the average of a starting salary of a Deputy (\$17.63) and the salary of our newest Traffic Unit Deputy John P. Morris (\$18.89). At the rate of \$18.26 per hour with FULL BENEFITS (retirement, insurance, worker's compensation, unemployment and taxes) the annual salary would be **\$69,577.00**

Vehicle: \$54,100.00- this amount includes the base price of the Durango, the cost to outfit the interior and exterior (lettering, light bar, interior cage, siren box, front push bar with light, lights in rear), radar (ECSO Traffic Unit uses an upgraded radar system which is purchased thru GOHS), camera system, radio system, computer stand and in-car printer.

Please let me know if there are any questions.

Sincerely,

Leslie E. Dunn

Attachment I

ATTACHMENT D

Describe the current use of the property you wish to rezone

The current use of the property is a primary residence with an auxiliary building. The auxiliary building was going to partly be used for a rural business as well as personal storage and a gathering place for family and friends.

ATTACHMENT E

Does the property you wish to rezone have a reasonable economic use as it is currently zoned?

No. I am not able to use my land or building to the full potential.

ATTACHMENT F

Describe the use that you propose to make of the land after rezoning.

I want to operate diesel repair business. This business is not looking to be a retail storefront. This business is designed to be mainly by appointment only. This business will focus on the local and surrounding community. With the coming growth of Georgia Ports, Mega Rail, and the Effingham Parkway. I believe I can be a key part in supporting the local community with my services. I have a large local customer basis already. This includes T&D Enterprises, Harco Construction, Broach Construction, Heritage Construction, Rahn's, Raya Transport, Bowen Trucking, Jones Trucking, Jessy's Trucking, City of Rincon, Guyton Fire Dept, Effingham county and several individuals. I have attached a petition showing the local support of this business.

ATTACHMENT G

Describe the uses of the other property in the vicinity of the property you wish to rezone.

The surrounding properties are residential with the closest house being over eight hundred feet away. The next nearest property is an estimated one thousand six hundred acre industrial development, along with a ten acre light industrial concrete pipe plant and a five acre light industrial concrete plant. There are several other commercial lots on or near Hodgeville Rd.

ATTACHMENT H

Describe how your zoning proposal will allow a use that is suitable in view of the uses and development of adjacent and nearby property.

With the current surrounding industrial and commercial zoning, along with the Effingham Parkway Project. I believe the rezoning of this property will be beneficial to all surrounding properties. By this property moving to a commercial zoning this will allow me to operate my small business and support the surrounding farms, individuals, and other businesses. The business I plan to run is not your normal retail business. My business is by appointment only. I'm not a storefront style business.

ATTACHMENT I

Will the proposed zoning change result in a use of the property, which could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools?

No, This business would not have any effect on these.

Re: Rhett Roscinski
430 Hodgeville Road, Guyton GA, 31312
Pin #416-3/416-2
Total Acres: 11.0 Acres to be rezoned: 11.0

To Whom It May Concern:

The Effingham County Health Department, Division of Environmental Health, has reviewed the request to rezone the above referenced tract of land from AR-1 to B-3. The proposed rezoning request is preliminarily approved based on the following supporting documents and does not meet the requirements for a proposed subdivision as defined by Rules of the Department of Public Health, Chapter 511-3-1.

- Completed Effingham County Rezoning Request Packet.

The following items must be submitted.

1. Completed Subdivision Application.
2. Completed Plat Review Application.
3. Level III soils overlay signed and stamped by the soil classifier on the Final Plat with Soil Suitability Description.
4. The following signature block should be used on all plats that require Health Department approval

Based upon the representations of the engineer/surveyor whose seal is affixed hereto and supplementary information provided, a review of the plat as represented by the said engineer/surveyor finds that this plat complies with the OSSMS regulations for a typical size residence of 3 or 4 bedrooms with basic appurtenances. Each lot must be reviewed and approved for On-Site Sewage Management System placement prior to the issuance of a construction permit. Modifications or changes in site designation may void this approval.

We Protect Lives.

This letter does not constitute a final approval, any matters overlooked or matters which arise after the date of this letter may result in additional conditions being applied or the proposed division of land being denied. The review is valid for one year from the date of this letter. If the survey plan has not been approved within this time, application must be made for an extension of the Preliminary Approval.

If you have any additional questions, please contact the Effingham County Health Department, Environmental Health Division, at (912) 754-6850.

Sincerely,

The following site plan shows the privacy fence areas and the areas where silver leaf shrubs have been planted. There is also a berm and shrubs going in, in the near future. This plan also shows 2 options that I have for gaining road frontage access to this property. I can have the 60ft road and required buffer divided off of 534 property and combined with the 430 property as needed. Natural vegetation has been left as a natural buffer as well.

Rhett Roscinski with Diesel Power Solutions is seeking to rezone so the business can be operated from 430 Hodgeville Rd. Diesel Power Solutions offers diesel repair services to small and large diesel engines and vehicles. This business opened in 2016 and operated in Effingham county, serving the local community and surrounding areas. Since 2016 Rhett has purchased a new piece of property on Hodgeville Rd, and has moved his family and small business there in 2019. Since the move, Diesel Power Solutions has grown, and is needing to operate in compliance of the Effingham County ordinance. With the unexpected growth of Diesel Power Solutions, commercial rezoning is needed for this business to continue to fully operate. Diesel Power Solutions supports the local community and employees several Effingham County families. This business is locally known and has a great reputation for the services that it provides. This business also has received praise for the programs that it participates in, such as Backpacks of Hope, Backpack Buddies, Safe Haven donations, Sheriff department donations, Free Oil Changes for single moms, and several more. We ask that the zoning change be approved by this Board so Diesel Power Solutions can operate this local business.

Executive Summary/Background

- The request for rezoning is a requirement of Appendix C, Article IX-Amendments to Map or Text, Section 9. Zoning districts are described in Appendix C, Article V-Uses Permitted in Districts. AR-1 requires a minimum lot size of 5 acres. AR-2 allows lots of one acre or more.

 1. The lot shall meet the requirements of the AR-2 zoning district.
 2. The subdivision plat must be approved by the Health Department and the Zoning Administrator, and be recorded before the rezoning can take effect.
 3. All wetland impacts must be approved and permitted by USACE.
- Juanita Golden seconded the motion. The motion carried unanimously.

Re: Rothel Wassum, Sr.
1200 Honey Ridge Road, Guyton GA, 31312
Pin #273-10
Total Acres: 22.0 Acres to be rezoned: 22.0

To Whom It May Concern:

The Effingham County Health Department, Division of Environmental Health, has reviewed the request to rezone the above referenced tract of land from AR-1 to AR-2. The proposed rezoning request is preliminarily approved based on the following supporting documents and does not meet the requirements for a proposed subdivision as defined by Rules of the Department of Public Health, Chapter 511-3-1.

- Completed Effingham County Rezoning Request Packet.

The following items must be submitted.

1. Completed Subdivision Application.
2. Completed Plat Review Application.
3. Level III soils overlay signed and stamped by the soil classifier on the Final Plat with Soil Suitability Description.
4. The following signature block should be used on all plats that require Health Department approval

Based upon the representations of the engineer/surveyor whose seal is affixed hereto and supplementary information provided, a review of the plat as represented by the said engineer/surveyor finds that this plat complies with the OSSMS regulations for a typical size residence of 3 or 4 bedrooms with basic appurtenances. Each lot must be reviewed and approved for On-Site Sewage Management System placement prior to the issuance of a construction permit. Modifications or changes in site designation may void this approval.

We Protect Lives.

This letter does not constitute a final approval, any matters overlooked or matters which arise after the date of this letter may result in additional conditions being applied or the proposed division of land being denied. The review is valid for one year from the date of this letter. If the survey plan has not been approved within this time, application must be made for an extension of the Preliminary Approval.

If you have any additional questions, please contact the Effingham County Health Department, Environmental Health Division, at (912) 754-6850.

Sincerely,

A handwritten signature in cursive script, reading "Darrell M. O'Neal".

To Whom It May Concern:

The Effingham County Health Department, Division of Environmental Health, has reviewed the request to rezone the above referenced tract of land from AR-1 to AR-2. The proposed rezoning request is preliminarily approved based on the following supporting documents and does not meet the requirements for a proposed subdivision as defined by Rules of the Department of Public Health, Chapter 511-3-1.

- Completed Effingham County Rezoning Request Packet.

The following items must be submitted.

1. Completed Subdivision Application.
2. Completed Plat Review Application.
3. Level III soils overlay signed and stamped by the soil classifier on the Final Plat with Soil Suitability Description.
4. The following signature block should be used on all plats that require Health Department approval

Based upon the representations of the engineer/surveyor whose seal is affixed hereto and supplementary information provided, a review of the plat as represented by the said engineer/surveyor finds that this plat complies with the OSSMS regulations for a typical size residence of 3 or 4 bedrooms with basic appurtenances. Each lot must be reviewed and approved for On-Site Sewage Management System placement prior to the issuance of a construction permit. Modifications or changes in site designation may void this approval.

This letter does not constitute a final approval, any matters overlooked or matters which arise after the date of this letter may result in additional conditions being applied or the proposed division of land being denied. The review is valid for one year from the date of this letter. If the survey plan has not been approved within this time, application must be made for an extension of the Preliminary Approval.

If you have any additional questions, please contact the Effingham County Health Department, Environmental Health Division, at (912) 754-6850.

Staff Report

Subject: Variance (Third District)
Author: Teresa Concannon, AICP, Planning & Zoning Manager
Department: Development Services
Meeting Date: January 19, 2021
Item Description: **Green Acres, LLC, for William D. Hutcheson**, requests a **variance** to the requirement for a 60' access easement to allow for a 30' access easement. Located on Old Augusta Rd. **Map#333 Parcels# 2&3**

Summary Recommendation

Staff has reviewed the application, and recommends approval of the request for a variance to reduce the required 60' access easement to 30', with conditions.

Executive Summary/Background

- Pursuant to Appendix C-Zoning Ordinance, Article VII-Planning Board, Section 7.1.8, variances may only be granted if the following findings are made:
That there are unique physical circumstances or conditions, including irregularity, narrowness, or shallowness, of lot size or shape, or exceptional topographical or other physical conditions peculiar to the particular property, and that the unnecessary hardship is due to such conditions, and not to circumstances or conditions generally created by the provisions of the zoning ordinance in the neighborhood or district in which the property is located; and
That because of such physical circumstances or conditions, there is no possibility that the property can be developed in strict conformity with the provisions of the zoning ordinance, and that the authorization of a variance is therefore necessary to enable the reasonable use of the property.
- The 39.5 acre property is in a conservation easement with the Georgia Land Trust, under the Georgia Conservation Tax Credit Program. The 30' easement is intended to serve only the home site(s) on the 2.75 acre portion not covered by the conservation easement. No subdivision or development of the property is planned.
- At the December 14 Planning Board meeting, Alan Zipperer made a motion to approve the request for a variance to the required 60' access easement to allow a 30' access easement to the existing home site, with the following conditions:
 - The 30' access easement shall be for the sole use of parcels 333-2&3, and no adjacent parcels.
 - The easement shall be increased to 60' for any future subdivision of 333-2&3.
 - The plat including the 30' easement must be approved by the Zoning Administrator, and be recorded before the variance can take effect.
- Peter Higgins seconded the motion. The motion carried unanimously.

Alternatives

- Approve** request for a variance to the required 60' access easement to allow a 30' access easement to the existing home site, with the following conditions:
 - The 30' access easement shall be for the sole use of parcels 333-2&3, and no adjacent parcels.
 - The easement shall be increased to 60' for any future subdivision of 333-2&3.

Form 8283: Noncash Charitable Contributions
Attachment for Information on Donated Property

Name: W. Darrel & Virginia L. Hutcheson
Identifying number: 257-62-7513

5(a). Description of donated property: The donated property is a conservation easement donated as a "qualified conservation contribution" under I.R.C. S. 170 (h). The conservation easement encompasses approximately ± 36.41 acres of land in Effingham County, Georgia.

Conservation Purposes:

The property possesses the following Conservation Purposes, in satisfaction of the Internal Revenue Code:

- I. The Property provides for the preservation of open space for the scenic enjoyment of the general public within the meaning of § 170(h)(4)(A)(iii)(I) of the Internal Revenue Code of 1986 *as amended* (herein, the "Code"). Protection of the Property promotes the following governmental policies: Georgia Uniform Conservation Easement Act [GA Code Sec. 44-10-1 et seq.] and Georgia Tax Credit Law [GA Code Sec. 48-7-29.12].
- II. The Property provides for the protection of a relatively natural habitat of fish, wildlife, or plants, or similar ecosystem, within the meaning of § 170(h)(4)(A)(ii) of the Internal Revenue Code of 1986 *as amended* (herein, the "Code") specifically the protection of a relatively natural habitat for a variety of migratory water birds and other migratory bird species, reptiles, amphibians and mammals. The Property also furthers the goals of the Georgia Comprehensive Wildlife Conservation Strategy (GCWCS) within the meaning of § 170(h)(4)(A)(iii)(II) of the Code.

In support of the afore-mentioned Internal Revenue Code criteria, the following Conservation Values also are also outlined in the Conservation Easement:

The Property is located along a large and high bluff overlooking the Savannah River. The Savannah River is popular for recreational boating. As the public boats along the Savannah River it can enjoy scenic views of the Property's bluff with natural forest. Portions of the Property contain an environment capable of sustaining agricultural activities.

The Property is located in the Sea Island Flatwoods region of the Southern Coastal Plain Ecoregion of Georgia. In this area, the Savannah River has been identified as a high priority watershed by the Georgia Department of Natural Resources in its Georgia Comprehensive Wildlife Conservation Strategy (herein "GCWCS"). A more detailed description of the Savannah River watershed is found in the Baseline Documentation Report, an Exhibit hereto. Protection of the Property promotes key protection strategic themes set forth in the GCWCS. Promulgated by the Georgia Department of Natural Resources (GA DNR) and conservation partners including

the United States Fish and Wildlife Service, the GCWCS was developed to enable the GA DNR to assess and address its outstanding wildlife diversity on a comprehensive statewide scale. The GCWCS describes a strategy for the comprehensive conservation of Georgia's wildlife by addressing specific components required by the State Wildlife Grants federal program that provides funding and administration through the United States Fish and Wildlife Service. The themes promoted by this Conservation Easement include maintaining functional examples of high priority habitat through voluntary land protection on private lands; and minimizing impacts from development on the high priority species and habitats in the Savannah River watershed.

The high priority habitat protected by this Conservation Easement is the Savannah River. The Savannah River is a large, low-gradient, meandering river with sandbars, sloughs and extensive floodplain swamps. Because of its proximity to the Savannah River, the Property's lake, open and forested areas are heavily utilized by migratory birds. The Property's lake is frequently blanketed by a variety of species of migratory ducks and geese. The Property also provides habitat for several species of birds considered "high priority" species for protection by the GCWCS. These include the Swallow-Tailed Kite and the Bald Eagle. The forest, scrubby areas and water resources on the Property also provide habitat for a variety of other animals. A detailed list of animal species, including high priority species, for which the Property provides habitat is included in the Baseline Documentation Report.

Statement of Purpose:

This donation was not used to obtain a permit or any other approval by a local or other governing authority. This donation was not required by contract.

Nearby Property Interests:

The donor has an interest in one residential homesite of approximately ± 2.75 acres contiguous to the donated property but excluded from the conservation easement. An enhancement value of \$17,000.00 was established for this property by appraisal and is included in the valuation of the property after the granting of the easement and is deducted from the charitable contribution in this manner.

5(b). Summary of overall physical condition of property at time of gift: Approximately ± 36.41 acres; Recorded in Effingham County, Georgia on December 31, 2009; Book 01907 Pages 0314-0336.

5(d). Date acquired by donor: January 4, 1999

5(f). Donor's cost or adjusted basis: A declaration of the taxpayer's basis in the property is not included in Section B, Part 1, 4(f) of the attached Form 8283 because of the fact that the basis of the property is not taken into consideration when computing the amount of the deduction. Furthermore, the taxpayer has a holding period in the property in excess of 12 months and the property otherwise qualifies as "capital gain property".

Exhibit A - Requirements for Conservation Easements and Restrictive Covenants

The following are required components of conservation easements accepted under the Georgia Conservation Tax Credit Program (GCTCP).

For All Conservation Easements:

- A baseline documentation report that provides a detailed description of the condition of the land at the time the conservation easement is placed on the property, as well as a forest or agricultural management plan if the property warrants such a plan.
- A provision stating that no amendments shall be made to the conservation easement without the approval of the Department. The Department shall have 90 days to comment on any requested amendment; and
- A provision in the conservation easement that identifies the donation's Conservation Purposes;
- A provision in the conservation easement that states that the conservation restrictions run with the land in perpetuity and that any reserved use shall be consistent with the Conservation Purposes;
- A provision in the conservation easement that prohibits the Grantee from subsequently transferring the interest in land unless the transfer is to another public or private conservation agency that will maintain the Conservation Purposes for which the donation was originally intended;
- A provision in the conservation easement that provides that the donation of the less-than-fee interest is a property right, immediately vested in the public or private conservation agency receiving the donation, and provides that the less-than-fee interest has a fair market value that is at least equal to the proportionate value that the conservation restriction at the time of the donation bears to the property as a whole at that time; the provision shall further provide that if subsequent unexpected changes in the conditions surrounding the property make impossible or impractical the property's continued use for Conservation Purposes and judicial proceedings extinguish the easement or restrictions then the Grantee is entitled to a portion of the proceeds from the property's subsequent sale, exchange, or involuntary conversion at least equal to the perpetual conservation restriction's proportionate value.
- All provisions or restrictions pertaining to mineral rights must be consistent with the provisions of IRC Section 1.170A-14.

Conservation Easements for Historic Resources:

- If the Conservation Purpose is for the preservation of a archaeological site, historic resource, or historically important land area, include documentation, in the form of the nomination or determination of eligibility for the Georgia Register of Historic Places. These resources may include an independently significant land area that meets the Georgia Register criteria for evaluation in Georgia Code 391-5-10, a land area within a registered historic district that can reasonably be considered as contributing to the district's significance, and a land area adjacent to a property listed individually in the Georgia Register of Historic Places where the land area's physical or environmental features contribute to the property's historic or cultural integrity.
- For Historic buildings, easements must protect the entire facade of the building and the associated land from alteration.

For Fee Simple Donations with Restrictive Covenants:

Eligible conservation land includes property owned by a Qualified Organization and protected in perpetuity through a permanent restrictive covenant as provided in subsection (c) of Georgia Code Section 44-5-60. Note: under Georgia Code, the land must be open to public use to qualify as permanently protected. For a restrictive covenant to meet GCTCP objectives, at a minimum the deed or restrictive covenant document must include the following:

- A description of the Conservation Purpose(s) of the property that qualified it for this program;
- A statement that the property is permanently protected as conservation land; and,
- A statement that the land shall be used and managed only for purposes compatible with the conservation purposes

Staff Report

Subject: 2nd Reading Zoning Map Amendment
Author: Teresa Concannon, AICP, Planning & Zoning Manager
Department: Development Services
Meeting Date: January 19, 2021
Item Description: Green Acres, LLC, for William D. Hutcheson, requests a **variance** to the requirement for a 60' access easement to allow for a 30' access easement. Located on Old Augusta Road. **Map#333 Parcels# 2&3**

Summary Recommendation

Staff has reviewed the application, and recommends approval of the request for a variance to reduce the required 60' access easement to 30', with conditions.

Executive Summary/Background

- Pursuant to Appendix C-Zoning Ordinance, Article VII-Planning Board, Section 7.1.8, variances may only be granted if the following findings are made:
That there are unique physical circumstances or conditions, including irregularity, narrowness, or shallowness, of lot size or shape, or exceptional topographical or other physical conditions peculiar to the particular property, and that the unnecessary hardship is due to such conditions, and not to circumstances or conditions generally created by the provisions of the zoning ordinance in the neighborhood or district in which the property is located; and
That because of such physical circumstances or conditions, there is no possibility that the property can be developed in strict conformity with the provisions of the zoning ordinance, and that the authorization of a variance is therefore necessary to enable the reasonable use of the property.
- The 39.5 acre property is in a conservation easement with the Georgia Land Trust, under the Georgia Conservation Tax Credit Program. The 30' easement is intended to serve only the home site(s) on the 2.75 acre portion not covered by the conservation easement. No subdivision or development of the property is planned.
- At the December 14 Planning Board meeting, Alan Zipperer made a motion to approve the request for a variance to the required 60' access easement to allow a 30' access easement to the existing home site, with the following conditions:
 - The 30' access easement shall be for the sole use of parcels 333-2&3, and no adjacent parcels.
 - The easement shall be increased to 60' for any future subdivision of 333-2&3.
 - The plat including the 30' easement must be approved by the Zoning Administrator, and be recorded before the variance can take effect.
- Peter Higgins seconded the motion. The motion carried unanimously.

Alternatives

- Approve** request for a variance to the required 60' access easement to allow a 30' access easement to the existing home site, with the following conditions:

 - The easement shall be increased to 60' for any future subdivision of 333-2&3.
 - The plat including the 30' easement must be approved by the Zoning Administrator, and be recorded before the variance can take effect.
- Deny** request for a variance to the required 60' access easement.

Meeting Date: January 19, 2021
Item Description: **Craig Addison** requests to **rezone** 5 acres from **R-1** to **AR-1** to allow for a second dwelling for an immediate family member. Located at 2354 Low Ground Road.

Map#372A Parcel# 3

Summary Recommendation

Staff has reviewed the application, and recommends approval of the request to rezone 5 acres from R-1 to AR-1, with conditions.

Executive Summary/Background

- The request for rezoning is a requirement of Appendix C, Article IX-Amendments to Map or Text, Section 9. Zoning districts are described in Appendix C, Article V-Uses Permitted in Districts. Section 5.1.2.5 allows one additional single-family dwelling for a family member.
- The applicant has 5 acres, and wishes to rezone to AR-1 and add a second home, rather than split the parcel for a home site.
- At the December 14 Planning Board meeting, Brad Smith made a motion to approve the request to rezone 5 acres from R-1 to AR-1, with the following conditions:
 1. The lot shall meet the requirements of the AR-1 zoning district.
 2. All wetland impacts must be approved and permitted by USACE.
 3. The plat shall include the existing 60' easement to the rear property (372-12).
- Peter Higgins seconded the motion. The motion carried unanimously.

Alternatives

1. **Approve** request to rezone 5 acres from R-1 to AR-1, with the following conditions:

Re: Craig Addison
2354 Low Ground Road Guyton GA 31312
Pin #372A-3
Total Acres: 5.0 Acres to be rezoned: 5.0

To Whom It May Concern:

The Effingham County Health Department, Division of Environmental Health, has reviewed the request to rezone the above referenced tract of land from R-1 to AR-2. The proposed rezoning request is preliminarily approved based on the following supporting documents and does not meet the requirements for a proposed subdivision as defined by Rules of the Department of Public Health, Chapter 511-3-1.

- Completed Effingham County Rezoning Request Packet.

The following items must be submitted.

1. Completed Subdivision Application.
2. Completed Plat Review Application.
3. Level III soils overlay signed and stamped by the soil classifier on the Final Plat with Soil Suitability Description.
4. The following signature block should be used on all plats that require Health Department approval

Based upon the representations of the engineer/surveyor whose seal is affixed hereto and supplementary information provided, a review of the plat as represented by the said engineer/surveyor finds that this plat complies with the OSSMS regulations for a typical size residence of 3 or 4 bedrooms with basic appurtenances. Each lot must be reviewed and approved for On-Site Sewage Management System placement prior to the issuance of a construction permit. Modifications or changes in site designation may void this approval.

This letter does not constitute a final approval, any matters overlooked or matters which arise after the date of this letter may result in additional conditions being applied or the proposed division of land being denied. The review is valid for one year from the date of this letter. If the survey plan has not been approved within this time, application must be made for an extension of the Preliminary Approval.

If you have any additional questions, please contact the Effingham County Health Department, Environmental Health Division, at (912) 754-6850.

Sincerely,

DESCRIPTION AND NOTES

A - These soils are suitable for installation of on-site systems with proper system design, installation and maintenance.

C - Because of flooding, shallow seasonal water tables, soil horizons with very slow percolation rate, perched water tables, or imperfect drainage, these soils are not suitable for installation of a conventional on-site system without site modifications, special designs or installation. Non-conventional systems and installation must be approved by the local Environmental Health Specialist.

F - Because of soil limitations, these soils are unsuited for installation of an on-site system.

J - These soils commonly have percolation rates that are too slow for installation of a conventional on-site system without special design or installation. Non-conventional system design and installation must be approved by the local Environmental Health Specialist.

The soil map will have delineated jurisdictional wetlands or approximate wetlands shown. If there are wetlands on the area soil mapped, then a 50 foot set back will be shown from the wetlands.

Site Specific Notes:

adsorption field area is protected during construction of the home and is not allowed to become a storage area for fill dirt, or used for trash pits. Keep heavy equipment from parking or driving on the adsorption field area. Do not install adsorption fields during wet or rainy periods. Do manage surface water away from drain fields with gutters and swells.

Disclaimer:

Recommendations are site specific and if not followed will void this report. All recommendations are based on the original undisturbed soil unless otherwise stated. If the site is disturbed from cutting or filling after date of site visit, this report is null and void. Your local Department of Community Health holds full authority in the permitting of on-site disposal systems and may view the soil conditions differently than the Soil Classifier and will have the final say in their county.

Summary Recommendation

Staff has reviewed the application, and recommends approval of the request for a conditional use to create a cemetery site for family use on an AR-1 parcel, with conditions.

Executive Summary/Background

- The request for conditional use is a requirement of Article V - Uses Permitted in Districts, Sec. 5.1.2 Conditional Uses. Section 5.1.2.2 allows cemeteries, when accessory to and on the same property as a permitted use in the agricultural residential district.
- The Bishop family is preparing for the death of an immediate family member with a terminal diagnoses who wishes to be buried on family property.
- At the December 14 Planning Board meeting, Alan Zipperer made a motion to approve the request for a conditional use to create a cemetery site for family use on an AR-1 parcel, with the following conditions:
 1. The cemetery site is solely for the private use of the Bishop family and not for commercial burial.
 2. Fencing must be 4' in height.
 3. The cemetery boundary must be at least 10' from both the road right of way and the neighboring parcel.
 4. A plat showing the cemetery boundary must be submitted to be signed by the Zoning Administrator, and recorded before the conditional use takes effect.
- Peter Higgins seconded the motion. The motion carried unanimously.

Alternatives

1. **Approve** request for a conditional use to create a cemetery site for family use, with the following conditions:
 1. The cemetery site is solely for the private use of the Bishop family and not for commercial burial.
 2. Fencing must be 4' in height.
 3. The cemetery boundary must be at least 10' from both the road right of way and the neighboring parcel.
