City:	State:	Zipcode:
Type of Trap:	Trap Number:	
Date Picked Up:	Date Due:	

___ I will not leave the trap in direct sunlight/rain when there is an animal inside.

___ I will release immediately any wildlife caught.

___ I will not set up the trap during the afternoon, on weekends, or on any county observed holidays:

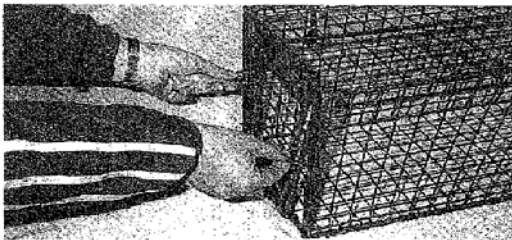

___ I will be responsible for transporting any animals caught to the Effingham County Animal Shelter.

___ As borrower of these traps I understand that I will be responsible for the humane care of any animals caught - **no animals left in trap over two hours.**

___ I am responsible for any loss or damage to the trap.

___ Acceptance of the trap is implied permission for the Effingham County Animal Control to enter my property to check on the trap at any time.

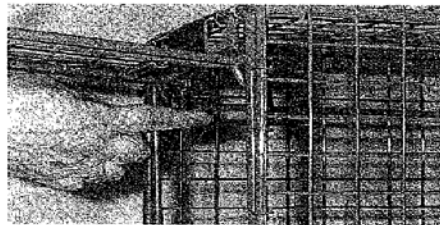

TRU-CATCH TRAP INSTRUCTIONS

To set your Tru-Catch trap, raise both rings with your index fingers to the top of the door, use your middle finger to open door. Set door on variable trigger setting and release door.

Your Tru-Catch trap is now set and ready for bait.

Place trigger rod on door against "L" shaped end of trigger rod on side of trap. Door weight will hold trip-pan up.

Take a small amount of bait and place it about 4 to 6 inches in front of the trap, then a small amount just inside of the door, then small amounts creating a trail to just behind the trip pan where the rest of the food is placed. Baiting techniques will vary depending on the animal being trapped.

To release an unwanted catch from the Tru-Catch trap, gently roll the trap over onto its top. The door will automatically open for release.
